# COPPERS

## **MAKING GOOD**

Another test day on Trinity. The morning papers announced that because the President of Copper Range had decided not to give up his personal ambition to run a great copper company, and because the controllers of Osceola, Tamarack and other good Lake coppers were holding out for tremendous prices," the "coming copper consolidation" had received a

olow in its hitching parts. This caused a considerable flurry and drop in all coppers but Amalgamated, which was strong and advancing.

But Trinity, regardless of copper deals on or copper deals off-regardless of anything but its inherent merit—was active and strong all day at its highest since the movement began—in fact, the highest in its history.

There were 30,000 shares of Trinity traded in, five or six times as much as any other stock on the Exchange but Amalgamated, and three times as much as Amalgamated. The price was 41 to 42 all day, and the closing was strong at 4114.

Trinity needs no words of mine to-night other than those I have so many times uttered of late.

I reiterate: I said "Buy Butte at 2." Butte went to 130 (now 116). I said "Buy Tri-Mountain at 10." Tri-Mountain went to 125 (now 94). I said "Buy Copper Range at 10." Copper Range went to 105 (now 94). I repeat: As President of the Trinity Copper Company, and as an individual, I advise, unqualifiedly, the purchase of Trinity stock at any price under \$65 per share.

## THOMAS W. LAWSON.

Boston, January 24, 1907.

Has created in this Trinity movement something new to the stock world. One of the tangible evidences of it is the tremendous quantity of letters containing buy orders and checks pouring in to me in every mail. My orders to-day, it is safe to say, are more than all the mail orders of all the Stock Exchange houses for any stock but Trinity. I do not seek orders, but, on the contrary, return checks and refer all buyers to the well-known firm of Towle and Fitzgerald, Members of the New York and Boston Stock Exchanges, 98 Milk Street, telephone Main-6940.
